Re: Carryover Requests GY 18-19 Projected Unspent Grant Funds

Date: November 9, 2018

---

Grantees receiving **IOLTA, BCLS, BCLS-VW, LASSA & LAV**<sup>1</sup> funds should regularly examine your projected expenses and expenditures of awarded grant funds during the grant year to determine if you will have spent your entire GY 2018-2019 grant award by the end of the grant year (August 31, 2019). If you project or anticipate unspent grant funds by the end of the grant cycle, you may consider asking permission to carry over unspent funds past the grant duration. Please carefully review your General Grant Provision manual Article XI "[Carryover](#)" prior to submitting any such request. This provision applies to all of the above grant programs.

This policy (see attached) allows grantees to request an amount up to 10% of grantee's current grant(s) to be carried over, with appropriate written explanation, for a limited time beyond the subsequent grant year upon staff approval. Carryover requests exceeding 10% up to the maximum 25% of the grant amount requires extraordinary circumstances with written explanation and have the Executive Director's approval. If you have more than one grant, a separate carryover request is needed for each grant.

Carryover approvals are not automatic and TAJF reserves the right to decline such request.

The deadline for any carryover requests is **June 15, 2019**. Attached also are instructions on how to submit request through WebGrants.

While your request must be timely, you should schedule any request at a point prudent when you can gauge as realistic as possible what you believe will be projected unspent funds by the grant's end date. Unspent funds not requested timely or approved to be carried over will be refunded to the foundation or Texas Supreme Court depending upon the fund source

**CVCLS funds may not be carried over.**

If you have any questions, please feel free to contact the Program Officer assigned to your grant or Jeanine Lisa with questions pertaining to [WebGrants](#).
